

Micstura | Project Planner

Project Planner

Every project is different. One size does not fit all. By answering these questions, you will help me craft a proposal that meets your needs. Kindly mail the completed project planner to info@micstura.com "Project Planner attached" and allow two weeks for a response.

Who are you?

Your name and title:

My name and title go here.

Business or organization name and location:

Answer here.

Your email address:

Answer here

Responding to queries generally takes up to two weeks. If you need me to move more quickly than that, please check here:

() I'm in a rush and need your proposal as soon as humanly possible.

() Take the normal amount of time.

Tell me about yourself

Briefly describe your organization. Who are you, what do you do, why does it matter?

Answer here.

If you have an existing site, what is the web address?

Answer here.

Describe the concept, product, or service this site is intended to provide or promote.

Answer here.

What primary business problem are you trying to solve with a site redesign? (If this is a new site, what is its primary purpose?)

Answer here.

List two or three primary competitive sites and include their web addresses. Please comment on the strengths and weaknesses of your competitors' sites.

Answer here.

Who on your end will guide this project to completion? Who will be responsible for maintaining the site after launch?

Answer here.

Tell me about your audience

To the best of your ability, describe the primary and secondary users of your site.

Answer here.

What primary action should a primary user take when visiting your site? (Examples include: becoming a member, subscribing to a newsletter, reading editorial content.)

Answer here.

What user needs does your existing site fulfill?

Answer here.

About the brand

Describe in as few sentences or words as possible the feelings you wish your site to evoke, and the brand attributes you want it to convey. (Sample feelings might include: warmth, friendliness, reassurance, comfort, or excitement. Sample brand attributes might include caring, honesty, humor, professionalism, intelligence, technological savvy, sophistication, reliability, and trustworthiness.)

Answer here.

Using adjectives and short phrases, describe the site's desired look and feel. ("Easy to look at, edgy, classic, up-to-date, crisp, modern, traditional, understated," etc.)

Answer Here

Features and scope

Does your site plan include community features, such as a user discussion forum? If so, do you have the appropriate personnel to manage such a forum on a daily basis?

Answer here.

Does your plan include media-intensive components, such as streaming video?

Answer here.

In number of pages, what is the approximate estimated size of your site? (Twelve carefully designed portfolio pages? Thousands of dynamic pages delivered by a content management system?)

Answer here.

If you presently work with a content management system, please tell me which system and version and describe its capabilities and limitations (or point me to a web address where we can find out more about it).

Answer here.

Will this project include an e-commerce component such as an online store?

Answer here.

Have you already created the site's content? If not, how soon do you anticipate having it ready?

Answer here.

Time and Money

If you're working within a time frame, or have been given a mandatory launch date, list it here. If the project will launch in phases, list proposed milestones and dates.

Answer here.

Please tell me your budget for this project.

Answer here.

NOTE: Some organizations prefer not to disclose their budget in an initial contact, but if you are willing to tell me your budget, it will help me craft an appropriate proposal. As a matter of information, I do jobs in the three- and five-figure range, depending on depth and complexity.

Front-end (design) technology

Describe your technological requirements, if any.

Answer here.

To deliver the best experience to the most users and to build pages that will last, we use modern standards-based methods. As a result, our sites may not look exactly the same in an old, non-compliant browser like Netscape 4 as they do in newer browsers.

My site has to look and work exactly the same way in 4.0 browsers as it does in newer browsers.

I understand that the site may not look as good or work as well in an outdated browser; that's okay, just do your stuff.

Thank you!

Thanks again for your time. Please save this document as your_org.doc (replace "your_org" with the name of your company) and mail to info@micstura.com.
